TERMS AND CONDITIONS FOR PARTICIPATION IN THE BLOTIX STAKING PROGRAM

The Undersigned:

Place of birth: ______________________ State: _____________ Date of birth: _____________

Tax Code: ______________________

Resident in: ______________________ Postal Code: _____________

Street/Square: ______________________ No.: _____________

E-mail: ______________________ Telephone: _____________ Mobile: _____________

Identity Document: ■ Identity Card ■ Passport

Document No.: ______________________ Date of issue: _____________ Expiry: _____________

Last Update: 27/12/2025

This document (hereinafter, the **"Agreement"** or **"Contract"**) sets forth the terms and conditions governing participation in the Staking program of the Blotix protocol (hereinafter, the **"Protocol"** or **"Blotix"**). Acceptance of this Agreement by the User (hereinafter, the **"Client"** or **"Staker"**) constitutes confirmation that they have read, understood, and agreed to the operational rules embedded in the Smart Contract governing the staking protocol.

Staking Amount (to be filled in by the Client)
Amount (in numbers): ______________________________ Amount (in words): ______________________________
Reference currency: ■ Euro (EUR) ■ US Dollar (USD)

1. NATURE OF THE SERVICE AND PURPOSE OF THE AGREEMENT

1.1 Technical Definition

The User acknowledges that the Staking service offered by Blotix does not constitute a financial, banking, or investment service. Staking is defined here as the technical activity of participating in the consensus mechanism of a decentralized blockchain network. Through the temporary locking (lock-up) of cryptographic tokens, the User supports network security, transaction validation, and the operation of the Proof-of-Stake (PoS) network.

1.2 Smart Contract Transparency

This document aims to clearly and transparently explain the immutable and coded conditions embedded within the Blotix Protocol Smart Contract. By accepting this Agreement, the User directly interacts with the logic programmed on the blockchain.

2. ECONOMIC AND OPERATIONAL TERMS

To participate in the Blotix Staking program, the User must meet the following financial and time-based requirements:

2.1 Minimum Entry Requirement

Activation of the Staking Smart Contract requires a minimum token deposit equivalent to **USD 100,000.00 (One Hundred Thousand 00/100 US Dollars)** at the moment of transaction execution, **unless otherwise specifically authorized in advance by Blotix governance**.

2.2 Duration and Lock-up Period

The capital deposited in staking is subject to a technical lock-up period of **12 (twelve) months**. During this period, the capital cannot be withdrawn, transferred, or unlocked early for any reason, as it is cryptographically locked by the protocol.

2.3 Annual Percentage Yield (APY) and Rewards

The Protocol provides a fixed reward calculated as follows:

APY (Annual Percentage Yield)	24% annually
Monthly Yield	2% on the deposited capital
Credit Date	Rewards are automatically credited to the User's Blotix Account on the **5th day of each calendar month**.

Note: This document is written in English. Translations into other languages are provided for informational purposes only.

First Credit – Minimum Accrual Rule	For the first reward credit, a minimum accrual period of **30 (thirty) days** from the date of staking activation must elapse. The first credit will be made on the **first 5th day of the month following the expiry of said 30-day period**. From that date onwards, rewards will be credited regularly on the 5th of each subsequent month.

*Example: If the Staking Contract is activated on March 10, the 30-day minimum accrual period expires on April 9. The first reward credit will therefore be made on **May 5**. Subsequent credits: June 5, July 5, etc.*

3. TOKEN MANAGEMENT AND LIQUIDITY

3.1 Credit Currency

All earned rewards will be credited directly to the User's Blotix Account and will be denominated exclusively in **Blotix Tokens**.

3.2 Convertibility and Reward Valuation

The value of the monthly reward is **calculated in US Dollars** based on the 2% monthly yield applied to the deposited capital. On the **5th of each month**, following the validation phase, the calculated reward amount is **automatically converted into Blotix Tokens** at the exchange rate applicable at the time of conversion, and credited to the User's available balance on the Protocol dashboard.

Note on Currencies and SafeMoney System

Fees and rewards are calculated in **SafeMoney (1 SafeMoney = 1 USD)**. Although the interface uses the dollar symbol ($) for ease of reading, credits are managed within the SafeMoney system. Credits are automatically converted into **Blotix Tokens** at the time of validation.

The available balance benefits from an **APR of 8%**.

Transfers outside the platform require a formal request and AML compliance data.

Important: Rewards accrued through participation in the Blotix community ecosystem — including APR yields, staking returns, and program bonuses — are benefits made available to community members as part of the ecosystem incentive structure. They do not constitute, under any circumstances, financial obligations or legally enforceable monetary claims owed by Blotix to its members.

3.3 No Fiat Conversion

IMPORTANT

Blotix explicitly declares that it does not provide fiat currency exchange services (Euro, Dollar, etc.). The Protocol operates **exclusively through its own native tokens and the Blotix Blockchain**.

3.4 Balance Management and Conversion into Blotix Tokens

1. How your rewards are credited	Rewards accrued through tokenization, staking, and other activities in the Blotix community are calculated in SafeMoney (1 SafeMoney = 1 USD). On the 5th of each month, after the validation phase, rewards are automatically converted into **Blotix Tokens** and credited to your available balance on the platform.
2. Advantages of holding Blotix Tokens on the platform	Maintaining your balance in Blotix Tokens within the community allows you to: • Benefit from the token's appreciation in value over time • Earn an **APR of 8%** on the available balance • Retain voting rights and governance within the Blotix Blockchain
3. Transfer to an External Wallet	Transferring Blotix Tokens to a wallet external to the Blotix Blockchain entails: • Loss of the 8% APR yield on the transferred balance • Conversion of voting and governance rights into a freely tradable crypto-asset, pursuant to EU Reg. 2023/1114 (MiCAR) • Obligation to complete the AML/KYC form in compliance with applicable anti-money laundering regulations (EU Dir. 2024/1640 – VI AMLD, EU Reg. 2023/1113 Travel Rule)

Note: This document is written in English. Translations into other languages are provided for informational purposes only.

Note: By choosing to maintain your balance, you preserve the stability of your purchasing power within the platform without immediately exposing yourself to obligations arising from transfer to an external wallet or to crypto market price variations, while at the same time earning an annual return of 8%.

4. RENEWAL AND END OF THE STAKING PERIOD

At the end of the 12-month lock-up period (**"Maturity Date"**), the User will have two options via the Protocol interface:

1. Unstaking: Unlock the initial capital and transfer it back to the available wallet.

2. Restaking: Subscribe to a new 12-month staking cycle under the terms in force at that time.

If the User does not take action within **7 days** from the Maturity Date:

- The capital will remain in soft-staking, with reduced or zero rewards until withdrawal, or
- It may be automatically renewed, depending on the User's previously selected settings.

5. RISK DISCLOSURE AND LIMITATION OF LIABILITY

The User declares awareness that:

Volatility	The value of **Blotix Tokens** may experience significant market fluctuations. The 24% return refers to the quantity of tokens earned, not their fiat value.
Technological Risks	Although Blotix uses high security standards, interactions with Smart Contracts and blockchain networks involve inherent risks (bugs, hacks, network failures).
Regulatory Compliance	The User is solely responsible for verifying tax and legal compliance related to staking activities in their country of residence.

6. REVERSE SOLICITATION CLAUSE AND STATUS DECLARATION (EU)

For the purposes of compliance with Regulation (EU) 2023/1114 (MiCA), the Client (resident in the EU) hereby declares and warrants the following:

1 – Spontaneous Initiative: The request for staking services and access to Blotix Fund LLC's technology has occurred at the sole and spontaneous initiative of the Client. The Client confirms that they have not received any solicitation, promotion, or direct marketing communications from Blotix Fund LLC or its representatives within their country of residence.

2 – Nature of the Service: The Client acknowledges that Blotix Fund LLC is an entity incorporated in Delaware (USA) and that the requested services are provided outside the EU harmonized perimeter, as they consist of technical incentives and participation mechanisms within the Blotix community ecosystem, not constituting financial instruments or investment services under applicable regulations.

Access Warning and Regulatory Compliance

Access to the platform www.blotix.org is subject to the full and unconditional acceptance of all applicable compliance conditions described on the Blotix.io and Blotix.org portal. Before proceeding, the user is required to declare and confirm that they meet all regulatory requirements, depending on the relevant jurisdiction and investor status, including — by way of example and without limitation — US regimes (Regulation S and Regulation D), the European Union (MiCA – Reverse Solicitation), and UAE/Dubai (VARA Compliance).

Access is permitted exclusively on the user's own initiative, in compliance with applicable regulations, and does not constitute a public offering, investment solicitation, or direct marketing activity in jurisdictions where such activities are not permitted. The user also declares to understand the risks associated with crypto-assets, including tokenization and RWA Staking initiatives, as well as to accept any time constraints, operational limitations, and lock-up periods provided for.

Failure to accept even one of the compliance conditions results in the impossibility of accessing the platform. In such case, the user is required to immediately discontinue the access procedure.

By proceeding, the user confirms the truthfulness of the declarations made and accepts that Blotix Fund LLC may rely on them for regulatory compliance purposes.

7. ACCEPTANCE

Note: This document is written in English. Translations into other languages are provided for informational purposes only.

FINAL SECTION – GENERAL PROVISIONS

Art. 13 – Governing Law

This Agreement is governed by the laws of the State of Delaware (USA), where Blotix Fund LLC is incorporated.

Art. 14 – Dispute Resolution

Any dispute arising from this Agreement shall first be resolved through good-faith negotiation between the Parties. Should the dispute not be resolved within **sixty (60) days**, it shall be referred to international arbitration in accordance with the ICC Rules.

Seat of Arbitration	Lugano, Switzerland
Language	English
Number of Arbitrators	One (1)

Important

Should either Party send a formal notice or initiate legal proceedings of any nature without having first followed the good-faith negotiation procedure and, where necessary, the arbitration procedure set out in this Article, such Party shall forfeit all rights claimed in connection with this Agreement.

In such event, Blotix reserves the right to permanently cancel the Licensor's account on the platform, with consequent loss of all accrued or future benefits and technical incentives, due to non-compliance with the Blotix Code of Ethics, which forms an integral part of this Agreement.

Art. 15 – Privacy and GDPR

The Parties undertake to process personal data in compliance with EU Regulation 2016/679 (GDPR) and applicable data protection legislation, for purposes strictly necessary for the performance of this Agreement.

EXPRESS APPROVAL OF CLAUSES

The Licensor hereby expressly approves, pursuant to Articles 1341 and 1342 of the Italian Civil Code, the following clauses:

Art. 2.1	Minimum entry requirement and governance authorization for exceptions
Art. 2.2	12-month lock-up period and prohibition on early withdrawal
Art. 2.3	Fixed APY of 24% and 30-day minimum accrual rule for the first credit
Art. 3.3	Exclusion of fiat currency conversion services

Note: This document is written in English. Translations into other languages are provided for informational purposes only.

Art. 3.4	Loss of APR and governance rights upon external transfer; AML/KYC obligations
Art. 5	Risk disclosure: volatility, technological risks, regulatory compliance
Art. 6	Reverse solicitation clause and access/compliance declaration
Art. 14	Mandatory pre-arbitration negotiation and forfeiture of rights in case of violation
Art. 15	Data processing under GDPR

The Licensor accepts that the technological service is provided by a US entity outside the EU harmonized perimeter and that it may be managed by an external party in compliance with MiCAR regulations.
